

Patient Name: Luna Martinez
Date of Visit: May 5, 2018
Medical Record Number: 533-6357

Subjective

- 35-year-old female, reports a gradual onset of joint pain, morning stiffness, and swelling affecting multiple joints.

Observation

- Joint examination reveals synovitis and positive rheumatoid factor. Both tests indicate elevated levels of C-reactive protein.

Assessment

- Rheumatoid arthritis

Plan

- Disease-modifying anti-rheumatic drugs will be prescribed to manage inflammation. Regular follow-ups with rheumatologist are scheduled.

Attending Physician: Dr. Elijah Harris
